Girls love working with people they trust.

Our Jewelry Specialists have over 100 years combined experience in fine and designer jewelry. Equally important are the relationships they are committed to building with each and every one of our customers. There is no substitute for making important purchases from people who know your style, what's already in your collection, what you've been "eying" and who will continue to work with you over time.

All of our Jewelry Specialists are educated by the Gemological Institute of America (GIA) with advanced degrees. Our Specialists are continually trained by each of our jewelry vendors to stay up-to-date on new industry developments, trends and to gain an in-depth understanding of each new designer collection as we introduce it into our stores.
